		24.6.	<u>b).</u> <i>Delivery schedule.</i> a. The Procuring agency requires that the goods under the Invitation for Bids shall be delivered at the time specified in the Schedule of Requirements which will be treated as the base, a delivery "adjustment" will be calculated for bids by applying a percentage, specified in the Bid Data Sheet, of the DDP price for each week of delay beyond the base, and this will be added to the bid price for evaluation. No credit shall be given to early delivery.

			<p>or</p> <p>b. The goods covered under this invitation are required to be delivered (shipped) within an acceptable range of weeks specified in the Schedule of Requirement. No credit will be given to earlier deliveries, and bids offering delivery beyond this range will be treated as nonresponsive. Within this acceptable range, an adjustment per week, as specified in the Bid Data Sheet, will be added for evaluation to the bid price of bids offering deliveries later than the earliest delivery period specified in the Schedule of Requirements.</p> <p>Or</p> <p>c. The goods covered under this invitation are required to be delivered in partial shipments, as specified in the Schedule of Requirements. Bids offering deliveries earlier or later than the specified deliveries will be adjusted in the evaluation by adding to the bid price a factor equal to a percentage, specified in the Bid Data Sheet, of DDP price per week of variation from the specified delivery schedule.</p>
		24.7.	<p>c) <u>Deviation in payment schedule.</u></p> <p>d. Bidders shall state their bid price for the payment schedule outlined in the SCC. Bids will be evaluated on the basis of this base price. Bidders are, however, permitted to state an alternative payment schedule and indicate the reduction in bid price they wish to offer for such alternative payment schedule. The Procuring agency may consider the alternative payment schedule offered by the selected Bidder.</p> <p>e. The SCC stipulates the payment schedule offered by the Procuring agency. If a bid deviates from the schedule and if such deviation is considered acceptable to the Procuring agency, the bid will be evaluated by calculating interest earned for any earlier payments involved in the terms outlined in the bid as compared with those stipulated in this invitation, at the rate per annum specified in the Bid Data Sheet.</p>
		24.8.	<p>d) <u>Cost of spare parts.</u></p> <p>f. The list of items and quantities of major assemblies, components, and selected spare parts,</p>

			<p>likely to be required during the initial period of operation specified in the Bid Data Sheet, is annexed to the Technical Specifications. The total cost of these items, at the unit prices quoted in each bid, will be added to the bid price.</p> <p style="text-align: center;">or</p> <p>g. The Procuring agency will draw up a list of high-usage and high-value items of components and spare parts, along with estimated quantities of usage in the initial period of operation specified in the Bid Data Sheet. The total cost of these items and quantities will be computed from spare parts unit prices submitted by the Bidder and added to the bid price.</p> <p style="text-align: center;">or</p> <p>h. The Procuring agency will estimate the cost of spare parts usage in the initial period of operation specified in the Bid Data Sheet, based on information furnished by each Bidder, as well as on past experience of the Procuring agency or other procuring agencies in similar situations. Such costs shall be added to the bid price for evaluation.</p>
		24.9.	<p>e) <u>Spare parts and after sales service facilities in the Procuring agency's country.</u></p> <p>i. The cost to the Procuring agency of establishing the minimum service facilities and parts inventories, as outlined in the Bid Data Sheet or elsewhere in the bidding documents, if quoted separately, shall be added to the bid price.</p>
		24.10.	<p>f) <u>Operating and maintenance costs.</u></p> <p>j. Since the operating and maintenance costs of the goods under procurement form a major part of the life cycle cost of the equipment, these costs will be evaluated in accordance with the criteria specified in the Bid Data Sheet or in the Technical Specifications.</p>
		24.11.	<p>g) <u>Performance and productivity of the equipment.</u></p> <p>k. Bidders shall state the guaranteed performance or efficiency in response to the Technical Specification. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the Bid Data Sheet will be added to the bid price, representing the capitalized cost of additional operating costs over the life of the plant, using the</p>

			<p>methodology specified in the Bid Data Sheet or in the Technical Specifications.</p> <p style="text-align: center;">or</p> <p><i>l.</i> Goods offered shall have a minimum productivity specified under the relevant provision in the Technical Specifications to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the bid, and adjustment will be added to the bid price using the methodology specified in the Bid Data Sheet or in the Technical Specifications.</p>
		24.12.	<p><u><i>h. Specific additional criteria indicated in the Bid Data Sheet and/or in the Technical Specifications.</i></u></p> <p><i>m.</i> The relevant evaluation method shall be detailed in the Bid Data Sheet and/or in the Technical Specifications.</p>
	Alternative	24.13.	<p><u><i>i. The number of points allocated to each factor shall be specified in the Bid Data Sheet.</p> <p><i>[In the Bid Data Sheet, choose from the range of]</i></p> <ul style="list-style-type: none"> ▪ Evaluated price of the goods 60 to 90 ▪ Cost of common list spare parts 00 to 20. ▪ Technical features, and maintenance and operating costs 00 to 20. ▪ Availability of service and spare parts 00 to 20. ▪ Standardization 00 to 20. ▪ Total 100. <p>The bid scoring the highest number of points will be deemed to be the lowest evaluated bid.</p>
