

# FOH

## FACULTY OF HERITAGE

BS – History  
 BS – Archaeology  
 BS – Tourism & Hospitality

### Scope

The scope of a history degree program includes studying and analyzing past events, cultures, societies, and civilizations. Graduates can pursue careers in education, research, publishing, archival work, museums, government, and more.

The Archaeology involves studying human history through excavation, analysis, and interpretation of artifacts and structures. It includes fieldwork, artifact analysis, cultural heritage management, historical interpretation, surveying, public engagement, cultural resource management, and academic research.

The scope of a Hospitality and Tourism degree program includes careers in hotel management, restaurant management, event planning, travel and tourism management, and destination marketing. Archaeologists contribute to our understanding of the past and help preserve cultural heritage.

# FP2A

## FACULTY OF PHOTOGRAPHY, FINE & PERFORMING ARTS

BS – Visual Arts

### Scope

The scope of Fine and Performing Arts includes visual arts, performing arts, fine art education, design and illustration, art therapy, arts administration, entrepreneurship, & art curation/criticism. It offers opportunities for creative expression, professional growth, and making a cultural impact.

The scope of Fine and Performing Arts is not limited to these areas, as the field is dynamic and continually evolving. It offers opportunities for creative expression, professional growth, collaboration, and the potential to make a lasting impact on the cultural and artistic landscape.

# FATP

## FACULTY OF ARCHITECTURE & TOWN PLANNING

BS – Civil Engineering  
 BS – Environmental Sciences

Bachelor of Architecture\*  
 (5 Years)

### Scope

Graduates of Civil Engineering can work in structural engineering, transportation engineering, geotechnical engineering, water resources engineering, environmental engineering, construction management, urban planning and development, and opportunities in research and academia.

The scope of Environmental Science includes environmental conservation and management, pollution control and environmental remediation, climate change and sustainability, environmental impact assessment, water and air quality management, environmental education and advocacy, research and academia, and corporate sustainability and environmental consulting.
